"Presentation Masterclass" usually refers to a class in which a senior musician provides comments and advice on students’ performance. In "Presentation Masterclass", several presenters will each make a 10 minute presentation on their own research. We will then discuss how the presentation could be made more effective. By sharing this experience all participants of the class can benefit from the comments made.

"Presentation Masterclass" is an open lesson on participants’ research presentations (sit-in allowed). If you are interested in joining the class, please register by google form or send an e-mail with your information.
Let's share the open session to improve our presentation skills!
If you are registering by e-mail, please provide the following information:
1. Your name & e-mail address
2. Your title and lab (plus department) or office you belong to
3. Whether you want to be a presenter or not
   (If you want to be a presenter, please write your presentation title)
We solicit 4 presenters (application deadline: Nov. 1).
In case of >5 applicants priority will be given to early registrants. Look forward to receiving your registration.
