

Organized by Laboratory of Human Evolution and Functional Genomics

FBS Seminar

Date & Time

2026

6/15 **MON**

13:30-16:00

Venue

Seminar Room

**2nd Floor
BioSystems Building**

Osaka University

Program

13:30~14:30

Dr. Pierre Savatier

Towards Germline and Interspecies Chimeras with Pluripotent Stem Cells: Challenges in Rabbits and Non-Human Primates

Université Lyon 1

Stem Cell and Brain Research Institute (SBRI), INSERM

~Break (10 min)~

14:40~15:40

Dr. Tomonori Nakamura

Dissecting Primate Pluripotency and Development in vivo and in vitro

Kyoto University

Institute for the Advanced Study of Human Biology (WPI-ASHBi)

~General Discussion (20min)~

Organizer : Ikuo Suzuki

Laboratory of Human Evolution and Functional Genomics
