

# Career Seminar

**Speaker: Prof. Toshie Kai**

The hot seminar by Prof. Kai in  
2017 will be back!

**1998**

Ph.D., Graduate School of Science, Department of Biological Science at Osaka University (OU).

**1999-2005**

Postdoctoral Fellow, Department of Embryology, Carnegie Institution of Washington/HHMI in USA

**2005-2010**

Principal Investigator, Temasek Lifescience Laboratories, Singapore

**2007-2010**

Adjunct Assistant Professor, Department of Biological Science, National University of Singapore

**2010-2015**

Senior Principal Investigator, Temasek Lifesciences Laboratory, Singapore

**2011-2015**

Associate Professor, Department of Biological Science, National University of Singapore

**2015-Present**

Professor, Graduate School of Frontier Biosciences, Osaka University.

**2019**

**10.30 WED**

**15:00 – 16:00**

**2F Seminar Room, Biosystems build.**

**\*Free discussion time will follow the seminar with soft drinks and light bites.**

**(16:00 -16:30)**

**Language: English**

Having PhD is not the end of the journey, but is just a start of another research life. How can we find a postdoc position in Japan and in other countries? How can we collect information about open slots? How can we contact PIs? To stay on the cutting edge, what kind of factors should we consider? How can we get a PI position in the end? I will talk about basics of how to deal with such matters, and some tips.

博士号を取得することは最終目的ではなく、さらなる研究生活の始まりにすぎません。

どのようにして国内外のポストドク ポジションを見つければいいのか？ またそれらの情報収集は？

PIへコンタクトはどのようにすればいいのか、また常に最先端にいるには、どのような要素を考慮に入れればいいのか、そして最終的にPIの地位を得るにはどうすればいいのか。

キャリアパスへのアプローチの基本や、その他のお役立ち情報についてもお話をする予定です。
