[IMPORTANT NOTE]

For those who wish to shorten the enrollment period without completing the mandatory enrollment period of five years (or three years for those who transferred into the 3rd year of the course)—one of the requirements for completing the doctoral program at FBS—it is necessary to undergo a review for shortening the enrollment period before applying for a doctoral degree. Only those whose request is approved through this review are eligible to apply for a doctoral degree without fulfilling the required period of enrollment.

Students seeking early completion must obtain approval from their supervisor and submit the "在学期間短縮申請書 (Application Form for Shortening the Period of Enrollment)" by the specified deadline. For details on the application procedures, please contact the FBS Educational Affairs Section.

Additionally, as applicants for shortening the enrollment period are expected to obtain their degree within one year, they are also required to undergo *Consultation Prior to the Preliminary Defense (Pre-Pre Defense)*.
